

The fashion show entry form and the fabric label form can be filled in using Adobe Acrobat. To use these forms:

1. Save the form to your computer.
2. Open the form with Acrobat and complete the necessary information.
3. Save the completed form with a new file name. For the fashion show entry form, please include your name and entry number in the file name. For example: *Fashion show entry–Jane Doe #1*.
4. Email the fashion show entry form. Remember to attach your photo(s) before you send the email. If you have more than one entry, clear the form, and repeat these steps.
5. Print the fabric label form and attach the labels to your fabric.

The buttons at the bottom of each form (*Clear Form, Save, Print, and Email Form*) may not work on all devices. If that's the case, just use the corresponding menu options in your software/app.

Most computers already have a version of Adobe Acrobat installed, but if you need it, you can find the free Acrobat Reader [here](#).
